

Intel Energy Policy

At Intel Foundry, we are committed to be leaders in everything we do. We are motivated to care for people and the planet from the development of our products, through our manufacturing and supply chain. In support of our EHS and Global Climate Change policies, we have a responsibility to minimize the use of energy in our buildings, factories and supply chain. We are confident that our technology will play a key role in addressing the planet's sustainability challenges.

Through our Energy Management System, we are committed to these principles:

- Following the letter and spirit of all applicable regulatory and Intel Climate, Energy, and Environmental requirements related to energy efficiency, energy use, and energy consumption wherever we operate.
- Continually improving our Energy Management System including our business standards, culture, and energy performance.
- Setting and reviewing objectives and energy targets to deliver improvement in energy performance.
- Ensuring the availability of information and necessary resources to achieve objectives and energy targets where practicable.
- Energy performance improvement and carbon intensity reduction of our operations through our design activities and procurement of energy efficient products and services.

Wei Chern, Lee

Vice President of Intel Foundry

Managing Director of Intel Malaysia

Polisi Tenaga Intel

Di Intel Foundry, kami komited untuk menjadi pemimpin dalam segala yang usaha kami. Kami tekad untuk menjaga masyarakat dan bumi ini daripada pembangunan produk kami, melalui pembuatan dan rantai bekalan kami. Demi menyokong dasar Alam Sekitar, Keselamatan, Kesihatan dan Perubahan Iklim Global kami, kami memikul tanggungjawab untuk mengurangkan penggunaan tenaga di bangunan, kilang dan rantai bekalan kami. Kami yakin bahawa teknologi kami akan memainkan peranan penting dalam menangani cabaran kelestarian planet ini.

Melalui Sistem Pengurusan Tenaga, kami komited kepada prinsip-prinsip ini:

- Mematuhi segala perundangan dan peraturan-peraturan serta keperluan panduan Iklim, Tenaga, dan Alam Sekitar Intel yang berkaitan dengan kecekapan tenaga dan penggunaan tenaga di mana sahaja Intel beroperasi.
- Sentiasa menambah baik Sistem Pengurusan Tenaga, termasuk piawaian perniagaan, budaya, dan prestasi tenaga.
- Menetapkan dan menilai objektif dan sasaran tenaga untuk meningkatkan prestasi tenaga.
- Memastikan ketersediaan maklumat dan sumber yang diperlukan untuk mencapai objektif dan sasaran tenaga yang boleh diamalkan.
- Penambahbaikan prestasi tenaga dan pengurangan keamatan karbon operasi kami melalui aktiviti reka bentuk kami dan perolehan produk serta perkhidmatan yang cekap tenaga.
